

Frequently Asked Questions

1. What is Ocusell List™?

Ocusell List™ is a listing management platform that makes creating and managing your listings faster and easier. With the most intuitive add/edit interface, 40+ verified data sources, and built-in compliance checks, you can publish listings across multiple MLSs in record time- while ensuring they meet MLS requirements before going live.

2. Who is Ocusell List™ for?

Ocusell List™ is built for agents - making it faster and easier to manage listings across multiple MLSs. For teams and brokerages managing listings at scale, we offer Ocusell List Plus which includes everything in List™, plus advanced tools for visibility, workflow management, and control to maximize efficiencies across your organization.

5. Does List™ support media and document uploads?

Absolutely. Ocusell makes it easy to upload and manage all your listing assets in one place - from property photos and virtual tours to documents - everything stays organized in a centralized platform.

3. What MLSs does Ocusell currently support?

Ocusell currently supports FMLS and GMLS, with Doorify, Hive, and OneKey MLS launching soon- and we're actively expanding throughout Georgia and beyond!

4. Can I use Ocusell on my mobile device?

Yes! While we don't have a standalone app, Ocusell List™ is fully mobile compatible, so you can access your listings and make edits from anywhere at anytime right from your browser.
